

Life not limits

MEDIA RELEASE

Tuesday, 18 November 2025

MSWA and MS Society SA & NT Unite to Continue Support for MS

We are pleased to announce that the formal process of acquiring the assets of MS Society SA and NT (MS SANT) has been successfully completed. As of Tuesday, 18 November, MSWA and MS SANT is now officially operating as a singular entity.

This marks a significant milestone in our ongoing commitment to supporting people living with MS and other neurological conditions across Australia. By bringing together the resources and experience of both organisations, MSWA and MS SANT can ensure continuity of vital support and services to the community.

MSWA is in a strong position to extend support, thanks to the generosity of our donors, volunteers and lottery supporters. We want to reassure our supporters that funds raised in Western Australia will continue to benefit people with MS and other neurological conditions living in WA, while future fundraising in South Australia and the Northern Territory will directly support local services to ensure a sustainable future in both regions.

The dedicated team in South Australia will continue to operate locally, supported and managed by the team in Western Australia. Our continued focus is on ensuring that every person living with MS in SA and the NT receives the support they need, while working to secure stability of neurological care in both regions.

We would like to take this opportunity to thank our team members, Clients, donors, volunteers and lottery supporters for standing with us through this transition.

We look forward to working together as one, delivering greater outcomes for those living with MS and ensuring they can live life, not limits.

About MSWA

[MSWA](#) provides vital support and services to people living with neurological conditions in Western Australia, striving to help Clients and the wider neuro community to live their best lives. This includes supporting people living with multiple sclerosis (MS), stroke, Parkinson's disease, Huntington's disease, motor neuron disease (MND), acquired brain injury and other conditions afflicting the brain and central nervous system.

Life not limits

MSWA has a team of almost 1000 staff who all work passionately to provide the best possible care to people right across the metro area and regional centres of Western Australia.

MSWA is a non-government, not-for-profit organisation. The money we raise through our fundraising efforts, government grants and other income generating programs goes directly to providing supports and services to people living with neurological conditions.

Our team of experienced nursing and allied health professionals provide information and a range of supports from the time of diagnosis. All MSWA programs are delivered in accordance with both the Disability Service Standards and our own service standards.

In addition to our direct care services, we also provide funding for vital research into neurological conditions.
